

The background of the entire page is an abstract composition of black and white geometric shapes. Large, irregular black shapes, some resembling stylized leaves or petals, are scattered across the white background. These shapes are outlined in black and have a slightly textured appearance. The overall effect is a high-contrast, graphic design.

PRESENTED BY THE  
ANNUAL STAFF  
OF THE  
ALTOONA, HIGH SCHOOL  
ALTOONA, KANSAS

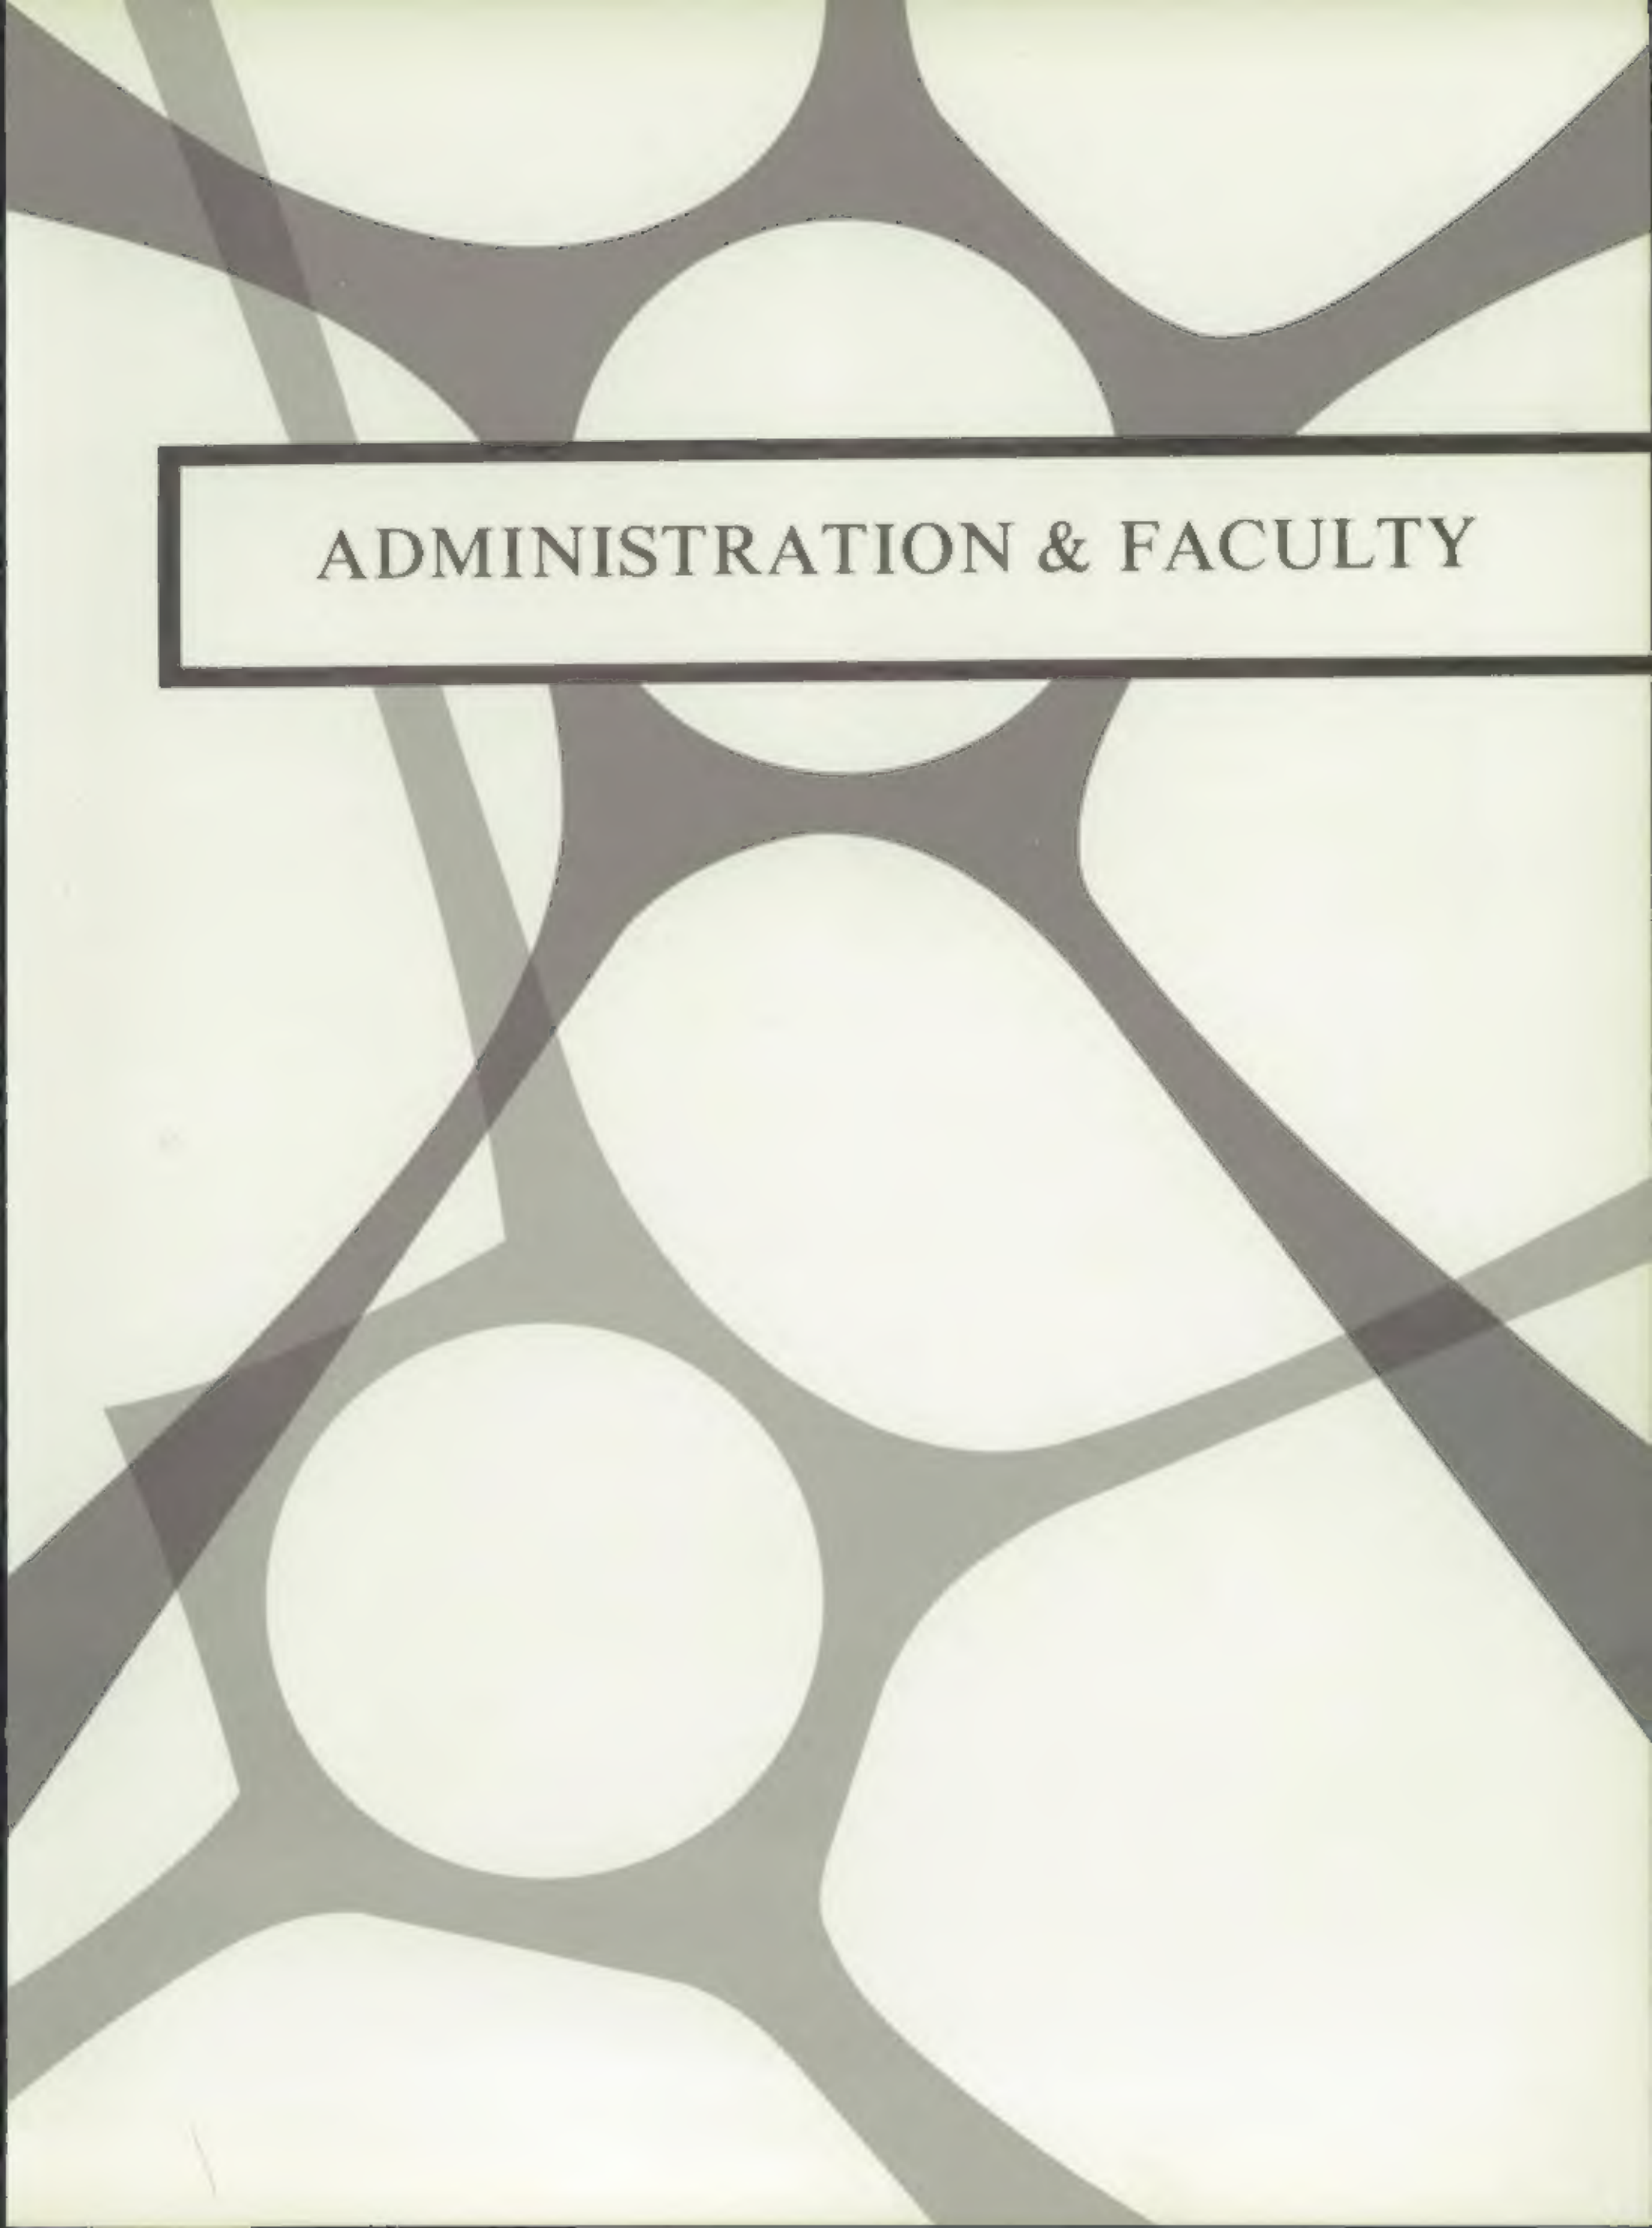

## FOREWORD

A yearbook holds something precious---memories.

Our past life is composed of memories and no where can they be better caught than in an annual. For the Seniors this is the final record of their memories of High School, and all the work and play that went into those years.

We, the Annual Staff, of 1969, take pride in presenting this year's POW WOW to you and hope it will help to recapture some of those memories that you have left behind.

## STORY

Granny Hitchwick is an eccentric, wealthy old lady who gives away five thousand dollars each year in the name of charity, BUT she never knows in advance to whom she is going to give it. She always plays an odd game of "clues" which leads her to some unknown person who makes the decision for her. Her granddaughter, Kitty, in love with a whacky college boy named Archie, would like to have the five thousand dollars donated for the tuition of some much needed football players, especially one named Herkimer. At the point where all kinds of innocent people are being mowed down right and left in the wild search for the disguised Herkimer the police arrive with a riot squad in order to prevent what appears to be mass murder, and to restore peace to the community.

Uncle Bagley has been visiting his sister Margaret at the latter's farm. According to Margaret's husband John, Bagley can't seem to do anything right. Being a geologist by profession, Bagley naturally is interested in the possibilities of finding oil on the Johnson farm. In his half-blind, bungling manner, Bagley manages to cause confusion and the farm stock. To add to the confusion, Paul and a college friend arrive home for a short vacation from school. Paul has some trouble with his girl friend Betty, but he is more interested in Uncle Bagley's theories of oil on the property. Paul and Bagley manage to "strike" oil by drilling.

## CLASS HISTORY

[illegible][illegible][illegible]

In the fall of 1980, we were three strong chiefs. We were looking forward to taking over running the ship at the time. Now we are down to one. Mr. Gillette. We said I don't know. He said I do not know who that friend from California was. A strong chief. Our leader was Mr. Leavitt. Car and Chiefs were still States President; Kathy Louia, Sec-Treas.; and June Starbuck, Vice President.

The 1980/81 Season was freezing in P.d. We had money making projects which was not in our Senior try to learn. We have reached the peak of the total page on May 21. It was a day we had all wanted but we were not successful. I started our way however. It was more ready to face the only way.
